

3rd International Green Energy Conference

CONFERENCE TOPICS

Renewable and Green Energy Technologies

- *biomass, wind, solar energy resources and technologies*
- *Alternative fuels*
- *Market and finance of RES*
- *Fuel cells and Hydrogen energy*
- *Energy storage techniques*
- *Green buildings*

Energy Systems

- *Energy process and systems simulation, modelling and optimization*
- *Advanced power generation transmission and automation*
- *Polygeneration systems*
- *Energy and automation*
- *Energy efficiency improvement*
- *Energy conversion and management*
- *Exergy and thermodynamic optimization*
- *Energy education*

Energy, Environment and Sustainable Development

- *Climate change policy*
- *Mitigation technologies*
- *Energy and sustainable development*
- *Energy security*
- *Energy policy, economics, and planning*
- *Pollutant emission, control and abatement*

Conference Chairs

Professor J. Yan
Professor E. Dahlquist

Co-Chairs

Professor X. Li
Professor I. Dincer

IMPORTANT DATES

December 01, 2006:
Short abstract due

December 15, 2006:
Abstract acceptance notified

March 01, 2007:
Full paper due

April 15, 2007:
Paper acceptance notified

Submit abstract/manuscript to:
www.igec.info

Secretariat of IGEC-III
Dept. of Public Technology
Mälardalen University
Box 883
SE 721 23 Vasteras, Sweden
